From Inspiration to Execution: How Generative AI is Shaping Startup growth journey

Microsoft and CIE IIIT Hyderabad are coming together to host Microsoft AI Day. The event will serve as a platform for facilitating engaging discussions bringing together start-up founders, investors, and enthusiasts, providing insights on Generative AI and how Microsoft can assist in scaling start-ups.

Please note that this event is invite-only and exclusive to start-up founders. We look forward to seeing you at our event and helping you take your start-up to the next level!

About CIE, IIIT Hyderabad

CIE at IIIT Hyderabad is a technology incubator with rich experience in seeding, nurturing, and growing deep-tech startups in emerging segments like med-tech, tech4social, visual informatics, data engineering, and machine learning, language technologies, gaming, and robotics. CIE IIITH, with a research-led innovation as its primary mandate, focuses on amplifying technology through research collaboration and co-creation models for startups to work with research groups at IIITH.
Under the CIE umbrella, there are 3 active incubators: deeptech incubator (Avishkar), the Medtech incubator (Ojas) & the social incubator (AIC). CIE also includes enabling labs like a well-equipped Maker Lab, a medical electronics calibration lab, and a AR/VR lab. IIIT Hyderabad also has Product Labs to seed new products from research, a pre-incubation program to seed startups from research. In the past 15 years we have grown to be the largest academic incubator in the country, have housed over 450+ startups that have raised about 250+Cr funding, and created over 2500+ jobs. Today there are very active programs focused on emerging technology startups, research-based startups, medical technologies, and social technology startups
