From Inspiration to Execution: How Generative AI is Shaping Startup growth journey

Microsoft and IIM Lucknow are coming together to host Microsoft AI Day. The event will serve as a platform for facilitating engaging discussions bringing together start-up founders, investors, and enthusiasts, providing insights on Generative AI and how Microsoft can assist in scaling start-ups.

Please note that this event is invite-only and exclusive to start-up founders. We look forward to seeing you at our event and helping you take your start-up to the next level!

About IIM Lucknow

IIM Lucknow Enterprise Incubation Centre has been set up by IIM Lucknow at its Noida campus. This is a registered section 8 company (Not For Profit). The center is supported by NSTEDB, Dept of Science & Technology, Govt of India, and UP State Govt under Startup & IT policies.

In the expanding chaotic universe of startups ecosystem in India and abroad any incubator / accelerator needs a clear strategy with a superior value proposition and business model that respects the rationality of markets and fairness of the social system.

Our center is focused on providing speed and faster growth to new ventures for successful commercialization of technology/products through a combination of the Accelerator program, SEED Capital, Corporate Venture Capital Fund, Smart Co-working space, Corporate Market Access, Mentoring, and Training programs. Our mission is to mitigate the rate of startup failure through business acceleration and incubation support.

"We script exciting journeys of startups to self-actualize through the commercialisation of cutting edge technologies."
